

Thank you!

You made a difference!

The first season of habitat restoration at the Coldwater Unit of the Mississippi National River and Recreation Area has been fantastic! We want to thank everyone for all of their good-natured humor and hard work. Without your enthusiasm, our projects would not be such a great success! Your work will benefit the plants and wildlife along the Mississippi River as well as improve the beauty for people who use the area in the future. Thank you for becoming involved in your community, and for taking part in the first season of restoration at this special site. We hope you all feel joy and accomplishment for your hard work, and will watch as the site changes over the next few years. Please know that everyone at the Mississippi National River and Recreation Area appreciates all you have done to help us restore our new property to something beautiful and special for the community. You really made a difference!
